

~~SECRET~~

Ass't. Director for Reports & Estimates

24 April 1947

Chief, ICAPS

Report of the Special Interdepartmental Committee on Korea

1. It appears to ICAPS that large sections of the attached SWNCC Memorandum for Information No. 75, dated 31 March 1947, falls clearly under the classification of national intelligence.

2. It is possible that SWNCC has used CIG (ORE) in this work through the established liaison channels. If so, ICAPS would appreciate receiving information to this effect from ORE.

3. It is also possible that SWNCC did not use CIG (ORE). If this latter is the case, ICAPS would appreciate receiving a commentary from ORE on those sections of the memorandum which are classifiable as national intelligence.
